

Samsung ATIV Book 9 Plus Battery Replacement

This guide will walk you through the steps to replace a battery on the Samsung ATIV Book 9 Plus.

Written By: Nidhi Patel

INTRODUCTION

In order to replace the battery, have a Phillips screwdriver handy. Make sure you are able to keep track of all the screws removed and where they belong (a magnetic project mat would be helpful). If your battery is damaged and needs to be replaced, replacement batteries should be purchased from the laptop's original manufacturing company (batteries can be bought online or in person from a Samsung retailer). Ensure that the battery is disposed of properly, according to your city's ordinances.

TOOLS:

- [Phillips #000 Screwdriver](#) (1)

PARTS:

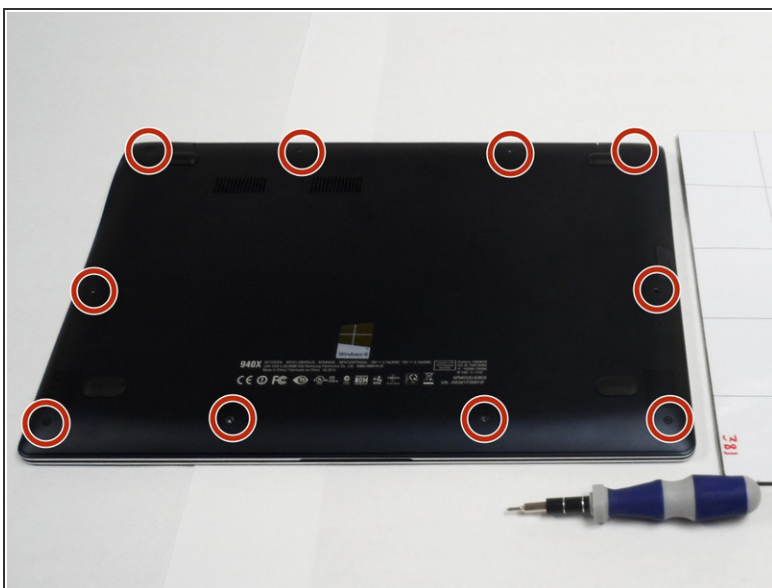

- [Samsung Replacement Battery AA-PLVN4AR](#) (1)

Step 1 — Back Cover

- Turn the laptop upside down so that the underside of the laptop is facing you.

Step 2

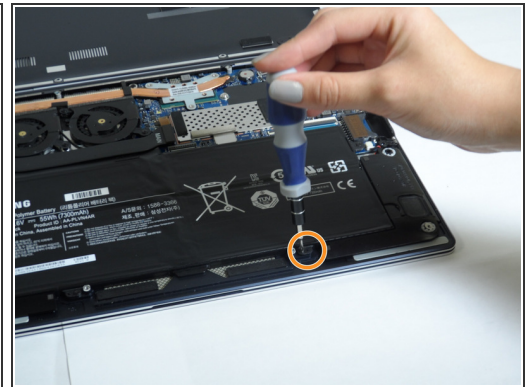

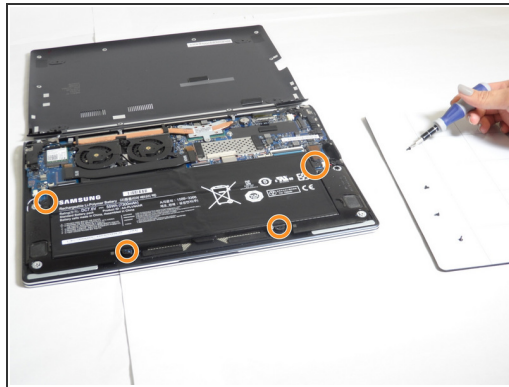

- Locate the 10 screws around the edges of the cover. Using a Philips head screwdriver, carefully unscrew the 4.3 mm Phillips #000 screws located on the edges and corners of the laptop.

Step 3

- Lift the cover to reveal the interior of the laptop.

Step 4 — Battery

- Unscrew the 4.55 mm Phillips #000 screws on the edges of the battery (there are four screws).

Step 5

- Lift to remove the battery from the laptop.
- ☑ Place in the new battery to match the edges located on the laptop. Push on the top edge of the battery to secure it in place.

To reassemble your device, follow these instructions in reverse order.
